TC104 MOTION – TRAFFIC MANAGEMENT IN BARNSTAPLE

The following motion was proposed, seconded and debated:

Barnstaple Town Council expresses its deep concern regarding the lack of a coherent traffic management plan for the area between the Long Bridge and the roundabout at the top of Sticklepath Hill.

£250,000 allocated for traffic management improvements is focused on cycle routes and one particular junction on the A3125. The cycle plans appear to be based on the assumption that a new bridge will be provided.

BTC understands that the bridge is unlikely to be delivered for the foreseeable future, and therefore that the focus on cycle routes represents the wrong priority. The local community is more concerned with the immediate impact on vehicular traffic movements in the area of the Anchorwood Bank development and potentially Seven Brethren, where the possible redevelopment of the Leisure Centre and riverside could create severe additional pressures. In addition, as yet unknown further development in respect of the Oliver buildings can only add to these pressures.

The current arrangements are already inadequate for existing traffic movements, and the proposed entrance to the Anchorwood Bank retail area is likely to cause significant further problems.

The Asda superstore is due to open in October 2016, and the Council understands that none of these issues is required to be addressed by that time.

This situation is wholly unacceptable. The Town Council calls on Devon County Council (as the highway authority) and North Devon District Council (as the planning authority) to put in place, as a matter of urgency, both plans and funding arrangements to ensure that traffic flows to and from Barnstaple town centre are not adversely affected by these current and future developments. We respectfully request that such plans are the subject of consultation with Barnstaple Town Council and other local stakeholders.

An amendment proposing the removal of the second paragraph of the motion and the first sentence of the third paragraph fell.

Comments & Trends

There has been a rise in the last two weeks of February in early and late night economy disorder leading to a number of violence with injury offences. In the most part suspects and persons involved have all been identified and the incidents have been sporadic and unrelated to one another. Significant in these results was one incident at a hotel following a wedding reception in which a number of people became involved leading to a number of allegations being recorded. Still overall for the year it is a slight decline on last year

Violence without injury continues an upward trend. This is monitored closely but again there is no link between the incidents relating to location or individuals – an increase in the last 28 day incorporates the half term period with a number of youth related matters being recorded.

The force has launched a new shoplifting process in January and two of the primary authorities are signed up to the process namely Tesco's and Co-op. This process is aimed at our larger corporate businesses who account for much of our demand. The process aims at better protocols for reporting and recording incidents and a focus on ensuring key evidence is recorded and captured promptly – such as making sure CCTV is ready and available for collection and simple pro-forma statements are completed by staff in a timely fashion for police. This process will be rolled out to multiple premises and it is hoped more primary authorities such as Boots will sign up to the process in the near future.

Community Matters

Much work is still ongoing surrounding begging and antisocial behaviour by certain individuals in and about the town centre. We are well aware of those involved and a number have been reported for criminal offences – littering and damage – and they have also been escalated in partnership with Safer North Devon on the antisocial behaviour scheme leading to community protection orders with a view to seeking criminal behaviour orders. A number of fines have already been issued. As well as tackling the behaviour we are also working with our partners in health and housing to try and address the needs of some of these chaotic individuals. We encourage anyone with information/concerns to report them to us.

Operation Bear Foot – is an ongoing operation run by the local policing team tackling the supply of controlled substances and legal highs to young people - especially those within educational premises.

To this end a number of search warrants and arrests have been made leading to a number of convictions for drugs related offences.

This is ongoing work changing the way we deal with drugs offences involving the young persons in our community seeking not to criminalise the young people involved – but to obtain information and intelligence to robustly tackle the persons behind the supply of the substances. A press release will be made in the coming weeks detailing some of those results.

Legal Highs – psychoactive substances - we have taken robust action to severely limit the sale of these items locally and continue to work hard to ensure that the market for the substances is continually disrupted. Legislation that will come into place in April 2016 will make it illegal to offer the substances for sale or to supply them. It will not be illegal to purchase or possess the substances.

This is new legislation and it will take time for case law to determine how effective it will be in practice. What we do know is that the industry is highly lucrative and it is highly likely people will continue to try and profit from the substances despite the change in legislation. We are working hard to continue to target those we believe will continue to try and take advantage of these substances and have set up the first legal high forum consisting of police and community partners in D & C at a local level to meet regularly to share information and promote education and information in line with the Devon public health strategy on psychoactive substances. Anyone who wishes to know more or potentially be involved in the forum please contact PC 5153 James Mallows on your local policing team.

Operational Concerns:

The local policing team in Barnstaple is still significantly limited in regard to operational staff. Currently there are three available police officers and six available police community support officers servicing the needs of all beat codes including the town centre. Despite the improved funding situations further cuts in sworn officer numbers will be made locally across departments. We are working hard to explore ways of maximising our available resources to tackle to work required and examining our shift patterns and processes to try and achieve this. The officers remaining on the team are working exceptionally hard to meet the community's needs and I would ask for your understanding of this situation whilst solutions are sort.

Questions To The Police:
